

Indiana Fan & Fabrication was established in 1895, was acquired by Horner Industrial Services, Inc. in 1997, and continues to service the industrial and commercial markets. Indiana Fan prides itself in rapid turnaround, excellent quality and competitive pricing. We can assist from conceptual design to the final installation. Indiana Fan is your complete source for part cutting, metal forming, welding, assembly, and installation. We can assist you on your present needs or bid on future work. We look forward to the opportunity to be of service!

Capabilities

Design & Manufacture

- Fume Exhaust Systems
- Industrial Fans and Blowers
- Ventilation and Exhaust Systems
- Dust and Material Collecting Devices (Cyclone Collectors, etc.)
- Structural Steel Supports, Catwalks, Work Platforms, Stairs, Ladders, Racking, Transfer Carts, etc.

Custom Metal Fabrication and Laser Cutting

- Mild Steel
- Aluminum
- Stainless Steel
- Structural Steel

Parts Department

- Bearings
- HVAC Blower Wheels and Condenser Props
- Drive Components (Sheaves, Bushing, Belts, Couplings)
- Turn, Ground and Polished Shafting (Stock Type 1045 shafting up to 4.25" Diameter)

Stock

- 5' x 10' and 4' x 10' sheets of galvanized steel, stainless steel, mild steel, AR and TI plate and aluminum
- Structural bar, angle, channel, beams, heavy plate and T.G. & P. shafting

Two (2) Mitsubishi 4000 Watt Lasers

Both are 3-axis flying optic systems that allow for increased cutting speeds with precision. These lasers are of only a few in central Indiana that are capable of cutting thin shim stock and up to 1 1/4" thick plate. Other materials such as plastic, UHMW, rubber, wood and cardboard can also be cut.

*Upgraded in 2007 with the latest technology!

Services

- Custom Laser Cutting
- Balancing – In Shop or at Job Site
- Complete Repair Shop for all Types of Fans
- Field Welding Services and Millwright Work
- Field Repair on Stationary Air Moving Equipment
- Redesign and Custom Repair of Obsolete Fans and Blowers
- Installation of Ventilation, Exhaust or Dust Collection Systems
- Engineering of Special Air Moving Equipment and Structural Steel Components
- Manufacturing and Installation of Staircases, Guard Rails, Catwalks, Industrial Decks and Walkways
- Material Handling Racks, Carts, and Storage

Shop Equipment

- Press Brakes – 16ft. x 3/16" 225 ton / 12ft. x 1/4" 165 ton
12ft. x 12 GA 135 ton / 5ft. x 14 GA 35 ton /
10ft. x 12 GA 130 ton Precision Press Brake /
10ft. x 12 GA 100 ton Precision Press Brake
- Shears - 3/8" x 10ft. / 3/16 x 10ft.
- Plate Rolls – 1/4" x 8ft. / 5/16" x 10ft. / 10 GA x 4ft. / 16 GA x 3ft.
- Angle Roll – Buffalo #2 Vertical – std. pipe 3 1/2" dia.,
XX heavy pipe 2 1/2" dia., angle leg out 4" x 4" x 5/8",
8" x 18" # beams, 9"-20# channel, 4" x 1" bar (on edge) or
9" x 1 1/4" (on flat), 2 1/2" rounds or squares
- Welders – mig, tig and arc
(mobile units also available for field installation)
- Machining – Vertical and Horizontal Milling Machines /
Drill Presses / 12" x 48" Lathe / Grinders
- Punches – Davco 50 Ton Iron Worker / Piranha P50 Iron Worker
- Saws – DoAll Vertical and Horizontal, Metal Miser Vertical,
Marvel Vertical Automatic Cutoff
- Cutting Equipment – Hypertherm Max 100 /
Hypertherm Max 200 / (2) Mitsubishi 4000 Watt Lasers
- Fork Lifts from 3000# to 8000# capacity
- (4) 10 ton overhead cranes, (1) 5 ton crane

*Manufacturers/Engineers/Fans and Industrial Sheet Metal Products
Serving the Industry Since 1895*
