

Transformer and Specialty Coil Rewinding

Horner Industrial Services, Inc. analyzes equipment to identify the cause of failure, and redesigns or remanufactures transformers to add to their useful life.

Whether it is a simple overhaul, rewind or core replacement, the best materials and workmanship are used. Our standards are unsurpassed in the industry.

Horner is not only capable of evaluating your needs, we are also able to provide the highest quality solutions to maximize your productive up-time and reduce operating expenses.

Your 24-Hour Industrial Solutions Provider

Services

- Repair, Rebuild, Duplicate
- Application Engineering
- Redesign from Aluminum to Copper
- Repair/Replace Tap Switches
- Pick-up and Delivery
- Removal and Installation
- Cleaning & Testing of Water Circuits and Heat Exchangers
- Clean and Troubleshoot Transformers
- Replacement of Bushing and Stabs

Testing Capabilities

- Power Factor
- Turn-to-Turn Ratio
- Dielectric Testing
- Pressure Testing
- Doble Testing

Serviceable Transformers

- Air and Water Cooled Specialty Transformers
- Anodizing & Plating Transformers
- High Voltage Power Supply Transformers
- Induction Heating Coils
- Power Distribution Transformers
- Specialty Coils and Magnetic Chucks
- Welding Transformers
